U. S. GUNNERS SINK GERMAN SUBMARINE

First Gun of War Destroys U-Boat About to Attack American Ship.

LONDON, April 26.—Captain Rice, of the American steamship Mongolia, which has arrived at a British port, told the Associated Press that the war for the United States and sunk a German submarine.

The naval gunners on board made a clean hit at 1,000 yards. The periscope was seen to be shattered.

The submarine, Captain Rice said, was about to attack the great liner, in British waters, on April 19.

He declared there was absolutely no doubt that the U-boat was hit and that there was every reason to believe it was destroyed.

LONDON, April 26.—Two British destroyers on patrol duty in the English channel off Dover on the night of April 20 came upon a flotilla of six German destroyers and then ensued an encounter which will live long in the history of naval engagements. The German destroyers were torpedoed and rammed; every gun aboard the combatants was working, sweeping the decks and tearing gaps in the sides of the opposing craft. There was the locking together of a British and German destroyer, and the men fought furiously in the hand-to-hand battle. The story of the engagement has been made public in the form of an official report.

LAREDO, TEXAS, April 26.—Pedro Gonzales, a former resident of Nuevo Laredo, Mexico, but recently living here, was indicted on a charge of conspiracy to set on foot an armed expedition against a friendly nation. Gonzales is said to have been the leader of the band of alleged followers of Felix Diaz who crossed into Mexico near here last winter and caused damage to the Carranza forces and to towns. He was arrested in Laredo several weeks ago.

FROM A STAFF CORRESPONDENT OF THE ASSOCIATED PRESS WITH THE BRITISH ARMIES IN FRANCE, via London, April 26.—The intensely bitter ground fighting of the last few days has been reflected in the air, and the British loyal flying corps recently established a new record by bringing down forty German machines. Fifteen of these were actually seen to crash, while twenty-five collapsed or fell in spinning nose dives completely out of control. The fight took place 15,000 feet in the air, from which distance it is barely possible to see the ground, and wholly impossible to see an adversary crash unless the pilot deliberately follows down.

PITTSBURG, PENN., April 26.—Arthur Kuhn, a mechanical engineer, with offices here, was arrested by agents of the Department of Justice, and confined in the Allegheny County Jail for the period of the war.

Officers who searched his home, in a fashionable district, said Kuhn was an officer of the German army, and that he was in possession of valuable military information because of his knowledge of the explosive manufacturing industry in his district.

Documents written in German were found among his papers.

NEW YORK, April 26.—Resolutions requesting Congress to eliminate the press censorship laws in the espionage bill because it "strikes at the fundamental rights of the people" and is "full of peril to free institutions" were adopted unanimously by the American Newspaper Publishers' Association at its annual convention here.

PEKING, April 26.—At a conference of Provincial and Military Governors, at which the Premier presided, it was voted unanimously that China should enter the war against Germany. A canvass shows that Parliament is overwhelmingly in favor of China declaring war, but President Li Yuan Hung is still undecided on the question.

NEW YORK, April 26.—Approximately 123,000 men have applied thus far and been found to meet the necessary requirements for membership in Colonel Theodore Roosevelt's proposed army division. It was announced here at enrollment headquarters, which which were opened some time ago with the former President's approval.

NEW YORK, April 26.—A cablegram quoting an Athens newspaper with the statement that Greece is on the point of entering the war as an ally of the Entente Powers was received by The Atlantic, a Greek daily newspaper here.

"The Greek daily newspaper Embros, Athens, in an inspired leading article, states that Greece is about to

ANOTHER OLD GLORY ADDED TO NUMBER.

With shouts of acclamation, cheers and hurrahs, punctured by the loud blasts of whistles from the engines and from the big round house siren of the Louisville & Nashville in the South Paris yards, an immense American flag was raised by the employees of the E. F. Spears & Sons' big mills and hemp houses in South Paris about six o'clock, Tuesday afternoon.

The demonstration that attended the unfurling of Old Glory was one of the most remarkable that has been witnessed in Paris for a long time. The hundreds of employees gathered in the yard around the buildings, and as the big flag went up to the top of the staff, there was joy unconfined. The din made by the ringing of the engine bells and the blowing of whistles caused many to think there was a fire in progress, and many inquiries were made as to the cause.

With the unfurling of this big flag there is now floating to the breeze as fine a collection of Old Glories as any town in the country can boast of. The glorious banner of liberty now adorns almost every business house in Paris, and all the public buildings.

SHOCK OF SEEING FRIEND DIE COSTS AGENT'S SIGHT.

Mr. Alfred Underwood, for over ten years the local agent at Georgetown for the Frankfort & Cincinnati railroad, dropped dead last week, just after he had returned to his work following a short illness.

John Samuel Whitton, who for the past twenty-eight years had been the freight agent at the same place for the F. & C., suddenly lost his sight Monday, caused, his physicians stated, by the shock of seeing his friend, Mr. Underwood, die. The men had worked together for the past nine years, the latter as general agent for the company. Mr. Whitton was alone with Mr. Underwood when the end came.

LONDON, April 26.—The Spanish Government's note to Germany regarding Germany's submarine campaign contains a paragraph stating that if Germany continues in its determination to sink all vessels in order to defend its life Spain must take like steps to defend its life.

COPEHAGEN, April 26.—The movement for the overthrow of Chancellor von Bethmann-Hollweg, halted for a time by the adoption of ruthless submarine warfare, is again becoming evident in Germany. The agitation is encouraged by dissensions over internal reforms, possible peace terms and food troubles.

FRANKFORT, KY., April 26.—Governor Stanley asserted that he would not be able to attend the conference of Governors with Secretary of War Baker in Washington, Wednesday, May 2. He will be represented by E. M. Swearington, of Louisville. M. O. Hughes, of Bowling Green, will attend the Federal Trade Council at Washington next week, to report on the food situation in Kentucky.

CHICAGO, April 26.—Warning of the danger of being shot by sentries guarding railroad property has been issued by Fairfax Harrison, Chairman of the American Railways Association Committee on National Defense, to all persons trespassing on railroad property. The warning was addressed particularly to those persons who habitually use a railroad right of way in preference to the public highways.

GAME WARDEN HAS UNUSAL EXPERIENCE

Mistaken For German Plotter By Soldiers Guarding Bridge.

Mr. Bush Bishop, of Paris, State Game Warden, and his assistant, Mr. Squires, while searching for an alleged violator of the game and fish laws in the vicinity of the Townsends Bridge on the L. & N. several nights ago had a rather trying and unusual experience.

Mr. Bishop had received information to the effect that some parties were suspected of violating the fish laws in the vicinity of Shawhan. Deputizing Mr. Squires he went to the neighborhood, and after considerable investigation, finally narrowed the suspicion down to one man, whose name, in the interest of future capture, remains a secret.

Mr. Bishop and Mr. Squires, learning that their man had been seen last in the vicinity of the Townsends bridge, on the L. & N., near Kiserston set out on a renewed search. As they approached the bridge, they saw in the semi-darkness figures moving back and forth, apparently searching the creek banks. Taking it for granted they had run down their prey the officers made a sortie toward the men when to their utter consternation they heard a stern command to "Halt! Who goes there?" Discretion being the better part of valor they halted. They had come upon a detail of the State Guard patrolling their beats in guarding the railroad property.

Mr. Bishop promptly displayed his badge of authority and stated his mission, but the guard, making no distinction between this apparent constitutional authority and possible German plotters, and determined to take no chances, sternly ordered the officers under arrest. He summoned a guard, who took the men to camp and placed them in confinement under guard. Expostulations on explanations were of no avail. There they were.

About half an hour after the officials had realized the power of Uncle Sam's authority, along came the very man they had been hunting. Engaging the officials' captors in conversation he inquired as to the cause of the men's confinement under arrest. Being told, he spent some few moments in quiet chuckling over their predicament, and, having satisfied his sense of humor over the tables being reversed, he called the officer in command to one side and informed him of the true circumstances of the case, and secured the release of Mr. Bishop and Mr. Squires. Then he quickly disappeared in the darkness. The officers returned to Paris, but kept the story of their night's adventure to themselves. But things will leak out, you know, in some way!

YOUNG THIEVES CAUGHT.

At the close of the night's business it has been the custom of Mrs. Margaret Warren, ticket seller at the Grand Opera House, to check up the ticket roll and to account for the tickets sold. Tuesday night after checking up Mrs. Warren discovered the roll was short eleven tickets, for which there was no corresponding amount of cash.

Patrolman Moreland was notified, and began an investigation. Suspicion fell on two young negro boys, and a close watch was kept upon them. Wednesday night at the beginning of the second performance the boys appeared in a great hurry and rushed up to the gallery entrance without stopping to purchase tickets. They tendered two tickets of the same kind that had been used on Tuesday night. The doorkeeper notified Patrolman Moreland, who placed them under arrest and took them to jail. The remainder of the tickets was found in the pockets of one of the boys. It was the theory of the police that the boys had secured the tickets by climbing through the ticket-sellers' window and secreting themselves in the box office.

SKILLFUL WORK OF NEGRO FORGER.

As an instance of how even a cautious financier can be deceived, it is told that the name of Mr. George W. Redmon, a well-known Bourbon farmer, living on the Jackstown pike, near Paris, was so skillfully forged by a negro domestic employed in the family that seven checks were cashed by a local bank before the bogus signature was discovered.

A tell-tale "a" instead of an "o" in the latter part of the name led to the discovery of the forgery. Even Mr. Redmon, when shown the checks, believed they were signed by himself until he examined them closely. When the eighth check was presented the irregularity in the spelling was detected, and Mr. Redmon was notified. After an investigation by the police the negro woman, who had gone to North Middletown, was arrested and jailed here.

NEW LAW FIRM.

In another column of this issue of THE NEWS appears the announcement of the law partnership of Messrs. Oscar T. Hinton, of Paris, and Victor A. Bradley and J. Craig Bradley, of Georgetown, under the firm name of Hinton, Bradley & Bradley. THE NEWS considers the formation of this partnership a matter of congratulation, and predicts a brilliant future for the combination.

Mr. Oscar T. Hinton is a well-established practitioner of this city, having originally taken up his profession in this, his home town and county. He has served for several years past in a most capable manner as Master Commissioner of the Bourbon Circuit Court, and has become, while serving in that capacity, familiar with the many perplexing technicalities of equity practice. His merit as a lawyer and his integrity is well recognized throughout this part of the State. He is one of Bourbon county's young men whom THE NEWS has kept an eye on, and one upon whom Bourbon county in years to come may well be proud to call her own.

Mr. Victor A. Bradley is serving his second term as Commonwealth's Attorney for this district. The experience of his office in representing the State in Bourbon, Scott, Woodford and Franklin counties for the past eight years has given him the pulse and learning so valuable to his profession. His marked success as a prosecutor has materially enhanced his enviable reputation as a trial lawyer. Mr. J. Craig Bradley is a brother of Mr. Victor A. Bradley. He has devoted his attention more especially to the study of law and is recognized as one of the best equity lawyers of the State. He is a familiar figure in the Court of Appeals, having practiced in that Court with marked success for the past ten years.

The new firm will have offices in the Bourbon-Agricultural Bank & Trust Co. building. THE NEWS welcomes them here, and predicts for them and new association the prosperity and success which the combination of their respective talents and ability will doubtless bring forth.

LEGS CUT OFF UNDER FAST MOVING TRAIN.

Death came to the relief of Frank Anderson, at the Massie Memorial Hospital, in this city Tuesday night, after he had lain in that institution for several hours, following amputation of both legs.

Anderson, who was a native of Kenton county, came to Paris, Monday, in search of work. He had been living near Grant's Tunnel, on the Louisville & Nashville, in Kenton county. Upon arriving here he changed his mind and determined to return to his home. Trainmen said that he attempted to board the local north bound freight, but missed his hold, was thrown under the wheels of the fast moving train, both legs being horribly crushed and mutilated.

He was picked up and taken to the Massie Memorial Hospital, where the company physicians resorted to amputation of both legs in hopes of saving his life. He lingered all day Tuesday, and death came Tuesday night.

The remains were removed to the undertaking establishment of Mr. George W. Davis, where they were prepared for burial. Relatives who had been notified of the accident, arrived Wednesday morning and took charge of the body, which was taken to his old home for interment.

EDITORIAL MUSINGS.

The Town Beautiful Movement.

The prevailing mode of town development for the past twenty-five years in progressive towns has been to lay out streets in checkerboard form at right angles. Some theorists of civic progress have advanced the idea of late that a layout of curving streets is more beautiful. They point to German cities that followed this plan to a large extent before the war. The right angled plan they condemn as too stiff, formal and geometrical.

In towns having hills or bluffs, curving streets are frequently needed to conform to the lay of the land. But there are practical objections to them on level ground. They usually make more steps for man and beast, though it is true that in some instances they do cut corners. They lead to irregular shaped lots, and promote a more scattered development of the town, necessitating larger expense for street and sidewalk and sewer development.

The laying out of streets is a matter to be strictly controlled by municipal authorities. In the more progressive towns it is usually so regulated. In some of the older and less advanced places, there is a disposition to allow real estate men to run streets in any criss-cross way that will produce the most house lots. Straight streets connecting with each other directly across a town have a beauty of their own. If well planted with trees, long and pleasing vistas are created, making a harmonious whole, and giving an impression of space and diffused arrangement.

A great number of cities have of late taken up the idea of town planning boards. Few men would think of constructing a house without a plan. If it is a house of much value, they call in a first-class architect. But until within a few years, most towns were content to grow without any public adopted plan for development. The result is frequently crazed patchwork streets, the lack of suitable park land, the failure to secure lots needed in the future for schools and other public buildings, for which high prices will have to be paid later.

Keeping Children In School.

As the school year draws to its close, many of the older children become anxious to quit study and go to work. Nor is it often a desire to assist in family support. Principally it is a longing for pocket money, for candy, picture shows, etc. The boy who has gone to "clerking," and can boldly with his own money line up a row of girls to an ice cream counter, is the particular hero of this period.

It is enough to make a teacher heart-sick, to see the children that drop out with their education "finished." They don't know the rudiments of American citizenship. They haven't enough arithmetic to make change at a candy counter. They have no manual skill. For years, perhaps always, they must dig ditches and sweep floors. These are honorable tasks, if well done. But they provide no solid basis for advancement, for growth in intelligence, and the education of the next generation.

The educator who can think up a scheme to keep these restless young-

sters in school is a benefactor to his community and the State. And his work usually gets the recognition of a good salary. He is scarce.

One High School principal whose work is widely known, makes athletics compulsory. The dull boy has his place on the class team to defend. That atones for some shortage of pennies. The parents will usually go hungry to keep them going. It is tough on them, but it pays infinitely. Work on school gardens or with tools keeps boys in line in many places. The boy who is acquiring real skill with a lathe thinks twice before taking a job as a floor sweeper.

The teacher will have to come down to some plain and practical talk about dollars and cents. She should show that graduation at the seventh grade means the shovel gang, while the High School means a chance for the bank and the business office.

THE FARMERS' SPECIAL PART.

Assistant Secretary of Agriculture Carl Vrooman has appealed to the farmers of the country to produce a great crop of foodstuffs this year. The appeal should be answered. It looks now as if a shortage of wheat, for this country and for the world, is unavoidable. This shortage must be made up by large production of other crops. There must be no bread famines and no riots over high-priced potatoes next winter.

Of course, no farmer is justified in disarranging his plan of farm work or forgetting the permanent welfare of his soil in order to plunge for a record-breaking production of any one crop. Such a policy is not called for. What is needed is a general moving up of production marks all along the line. No fear as to lack of a market for any staple food product need be felt. The world is hungry and demands to be fed. It will pay to feed it. More than this, the welfare and safety of the nation demand that an abundant supply of foodstuffs for this nation and for the nations across the sea who are helping fight the battle for human rights be produced on American farms this year.

American farmers will not fail to meet the demands these troublous times have laid upon them.

KENTUCKY CROP SUMMARY

Except for unseasonably low temperature prevailing during most of the week, the weather during the past week was favorable; but the soil continued wet, hence farm work and crops progressed very slowly. Freezing temperatures were quite general on several mornings. Much better temperature conditions, however, prevailed at the close of the week, when the top soil was drying out and considerable plowing was accomplished. The wheat crop is generally reported as poor, and rye fair, but both crops are improving. Pastures are good. Tobacco is very late, while practically no corn has been planted. Garden truck planting is progressing slowly. Early peaches are damaged; but the late varieties and other fruit give fair promise.

INSOMNIA.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere. (april-adv)

Farm boys are quickest to join the army, say recruiting men. But most of the patriotic noise comes from the cities.

SPRING.

Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere. (april-adv)

RENGO BELT Reducing Corsets

are made exclusively for medium and full figures

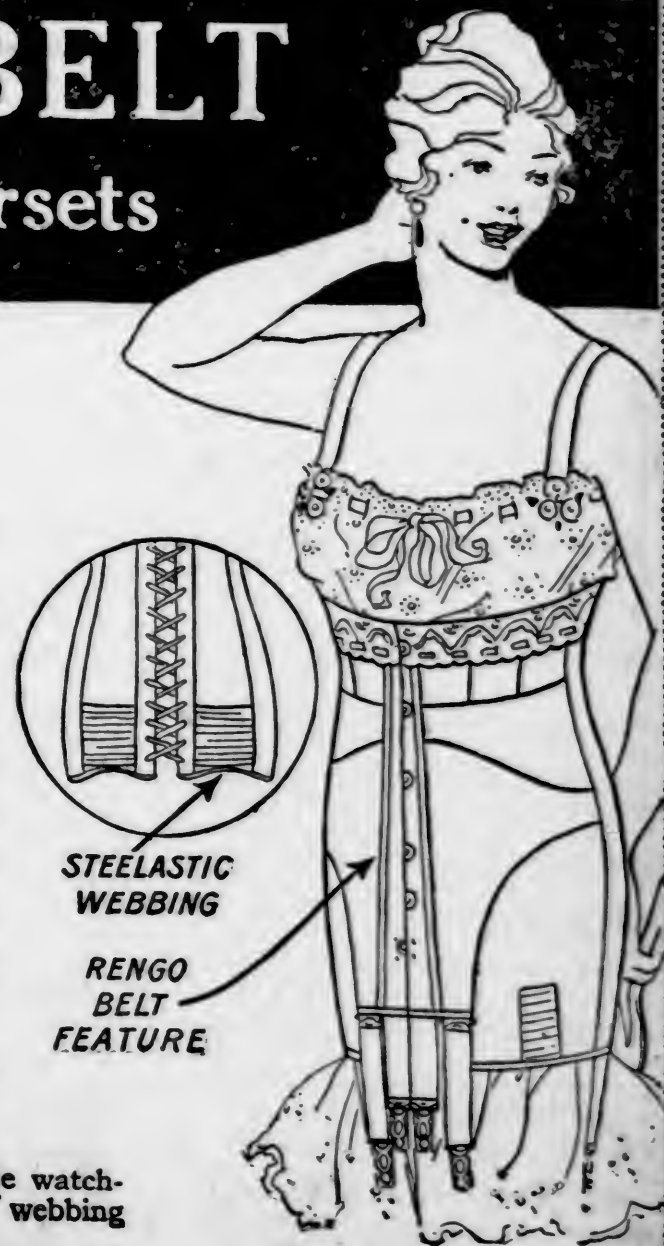

Rengo Belt Corsets are not intended for slender women—they are strong, sturdy corsets for medium and stout women, reinforced by a specially designed and exclusive Rengo Belt feature for straightening the abdominal line.

In every other respect these famous corsets are ideal for reducing because of their perfect lines and absolute strength. Rengo Belt Corsets cannot be stretched out of shape or broken, no matter what amount of wearing stress is put upon them by heavy figures. They will mould to their own beautiful lines because they are stronger than any figure, yet pliable and comfortable because they have no "fixings" or "trappings" of any kind—nothing to indicate that they are specially constructed Reducing corsets, unless you understand the scientific tailoring of the design itself.

All models are boned throughout with double watch-spring steels, and some are fitted with "steelastic" webbing inserts, for more active freedom.

Spring Colds Are the Worst

They lead to catarrh and pneumonia. They weaken the entire system and leave it unable to resist the sudden changes. They interfere with your digestion and lessen your activity. Neglected they soon become that dread disease known as systemic catarrh. Don't neglect them. It's costly as well as dangerous.

PERUNA Will Safeguard You

Have a box of Peruna Tablets with you for the sudden cold or exposure. Tone your system up with a regular course of the liquid Peruna, fortify it against colds, get your digestion up to normal, take care of yourself, and avoid danger. If you are suffering now begin the treatment at once. Give Nature the help she needs to throw off the catarrhal inflammation, and again become well.

Peruna has been helping people for 44 years. Thousands of homes rely on it for coughs, cold and indigestion. It's a good tonic for the weak, as well.

The Peruna Company, Columbus, Ohio

It's no disgrace to be getting old but it is mighty foolish to let yourself be 60 years of age at 45.

Gardening is hard work. Anybody who says it isn't is lying to you.

FARMER, 76, IS WELL MAN NOW

Old Kentucky Cavalryman Finds Way to End Weakness.

"HIS WORD IS HIS BOND."

E. A. Wallace, who lives on the Owen-ton pike, six miles from Frankfort, is one of the best known farmers in Franklin county. He is seventy-six years old and a veteran of the Third Kentucky cavalry, in which he served in the stirring days of '61. He is also a prominent member of the Odd Fellows' lodge, and when his friends speak of him they often say, "His word is his bond."

Mr. Wallace recently felt generally run down in health and became weak and nervous. He was persuaded to try Tanlac, the tonic which has been indorsed by literally thousands of fellow Kentuckians, and after a thorough test he felt himself in duty bound to come out with the following public statement. He said:

"I suffered from nervousness and weakness and was generally run down. I couldn't sleep well nights on account of my nervousness. I took four bottles of Tanlac, and the result was simply remarkable. For one of my age I almost feel like a new man."

"I am glad to recommend Tanlac because of what it has done for me. I believe it to be the best tonic I have ever taken, especially for the nerves and as a strength restorer."

It is on the recommendation of such men as Mr. Wallace that Tanlac has become so popular all through Kentucky. Men like him would not come out publicly and praise it if its merits did not justify their words.

If you are not feeling right get Tanlac today. Don't put it off, as delay in health matters is dangerous.

Tanlac, the master medicine and reconstructive tonic, is sold exclusively in PARIS by Varden & Son. Other exclusive agents in nearby towns are as follows:

HUTCHISON, Snell & Wood; MILLERSBURG, W. G. Wadell; ELIZABETH, Oscar Smith; CARLSLE Trueman & Son; GEORGETOWN, C. H. Arnold; WINCHESTER, Duty Drug Company; AUSTERLITZ, B. S. Par rish.

NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N.J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. MILFORD T. CUMMINGS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.

FOR REPRESENTATIVE FROM FLEMING COUNTY

Mr. S. Lee McGohan, editor of the Ewing Inquirer, has announced his candidacy for Representative in the Legislature from Fleming county, subject to the action of the Democracy of Fleming county at the August election.

Mr. McGohan, in his card states that he is heartily in favor of the State-wide prohibition movement, but supplements the declaration, as follows:

"In defining my stand on the above, it is not for the sake of merely winning political favor, for before I would sacrifice my convictions, be they 'wet' or 'dry,' I would be content to fill the lowest station in life, and having the satisfaction of knowing it was honorably filled."

Mr. McGohan is one of the best-known newspaper men in his section, and is personally one of the most agreeable and companionable of men. He has character and intellect to a marked degree and if elected to the office, he would represent the good county of Fleming in a most worthy way.

ENDORSED AT HOME.

Such Proof As This Should Convince Any Paris Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, or may be sure he is fully convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Paris adds one more to the many cases of home endorsement which are being published about Doan's Kidney Pills. Read it.

H. C. Hutchcraft, 1115 Main Street, Paris, says: "I have used Doan's Kidney Pills off and on for a great many years and with good results. Whenever I have suffered from weakness or lameness across my back, I have always found Doan's Kidney Pills, procured from the Ardery Drug Co., never fail to relieve me of the complaint."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hutchcraft had. Foster-Milburn Co., Props., Buffalo, N. Y.

RECOVERS TIMEPIECE.

A watch which Mr. Kenney Kiser lost nearly four years ago while plowing in a field on the farm of his father, Mr. Walker Kiser, near Kiserston, was recovered by him a few days ago in a most unexpected way.

Mr. Kiser was plowing in the same field, and when about the middle of a long furrow, the plowshare threw out an object that sparkled in the sun. Mr. Kiser secured it and after cleaning it off, was pleased to discover he had found his long lost watch in identically the same spot where he had dropped it nearly four years before.

The timepiece was in perfect condition, with the exception of the second hand, which had become badly rusted. The watch, when wound up, started running as well as ever, and at last accounts was still going, with excellent prospects for future usefulness.

B-4 FIRE Insure with W.O. HINTON & SON, Agts

DESTRUCTIVE FIRE.

A fire of unknown origin which swept over a portion of Dayton, Ky., last week, caused a damage of \$13,000 to the buildings occupied by George J. Rost & Sons, and the Fisher Transfer Co., near the C. & O. depot and Walnut street.

An iron wall in the Fischer stables was all that held the fire back and prevented what would have been a most disastrous conflagration in the business district. A high wind was carrying the flames toward the residences, from which the occupants fled in terror and alarm. The loss to the firms was George J. Rost & Son, \$12,000; the Fischer Transfer Co., \$1,000. Partly insured.

FORMER PARIS BOY WINNER IN DEBATE.

Cadet Rogers, of Kentucky, was the successful contender in the debate recently held in the auditorium of the Curry Literary Society, at Greenwood, S. C., over representatives from the Pierian Society of Spartanburg, in the same State.

The query under discussion was, "Resolved, That the United States should require every able-bodied male citizen between the ages of nineteen and twenty-one to serve six years, three months in each year, in military training, under the direct supervision of the War Department." The Curry representatives took the affirmative, while the negative was upheld by the Pierians.

Mr. Rogers is a former resident of this city, being a son of Mrs. Elizabeth C. Rogers, formerly of Paris, and now residing in Lexington. He is a nephew of County Judge Charles A. McMillan, Mrs. Jo Varden and Dr. Raymond McMillan, of Paris, and a grandson of Mrs. J. T. McMillan, of Lexington. His father, the late Samuel Rogers, was a prominent member of the Bourbon county bar.

A MISTAKEN IMPRESSION.

In some unaccountable way the impression has gone forth that the men who have enlisted in the naval branch of the United States service will not be permitted to write home. It has been stated by some that this order was given out in order to prevent any possible information regarding the navy getting into wrong hands.

No restrictions has ever been placed on the enlisted men in this particular, according to a letter received yesterday by THE NEWS from Lieutenant R. S. Robertson, Jr., officer in charge of the Lexington recruiting station, who states that the men, especially the younger men, are encouraged to write home as often as they please, and in fact, are requested by the recruiting officer personally, when they take their oath, to write home often.

Different members of THE NEWS staff have received postcards from some of the Paris boys who recently enlisted and who are now at the Norfolk navy yard. Just who started the report and how it started THE NEWS does not know. It has never at any time appeared in this paper, which has at all times encouraged the enlistment of young men in the navy and has given space to the Navy Department's bulletins for that purpose.

BOY OF GREAT PROMISE.

Sunday's Enquirer prints a fine half-tone picture of Fred Merrimee, son of Mr. and Mrs. W. T. Merrimee, formerly of Paris, who has made quite a reputation as a jockey. The cut is accompanied by the following sketch:

"Horsemen say that Fred Merrimee, son of W. T. Merrimee, L. and N. dispatcher at Paris, Ky., is one of the coming riders of America. The boy is 16 years of age and rides at 98 pounds. He won his first race at New Orleans in 1915. He has ridden many winners since then.

"He began exercising horses for Amos T. Turner, of Paris, Ky., in March, 1914, went with his horses to Washington and through Canada and Maryland in the summer of 1914; rode for Mr. F. J. Pons in the fall of 1914, and has since been with that stable. He has 35 winning mounts to his credit. Mr. O. E. Pons has charge of the horses since the death of F. J. Pons. He has been living in Paris 13 years."

Young Merrimee has been in Lexington for several days, coming there to settle some trouble he is involved in about the question of contract. He will not ride at the Lexington meeting but will return as soon as the trouble is properly adjusted.

NEW DAILY MAKES FAVORABLE IMPRESSION

The first issue of the Winchester Daily Democrat, under the editorial and business guidance of Mr. Charles B. Nelson, made its initial bow to the reading public of Winchester and vicinity Monday. The paper is most excellently gotten up, and is full of good things from first to last.

The reportorial work is in charge of Mr. George M. Kiser, formerly of THE BOURBON NEWS, and lately connected with the Winchester Sun, assisted by a corps of competent newspaper people. Regular contributors to the new publication in the future will be Mrs. Dollie L. Nelson, Misses Mary Amis, Beula Thompson, Catherine Nenan and Mrs. H. R. Cook.

The new daily gives every indication of being a success from the very first edition. Winchester, always a hustling city, can well afford to support two good daily papers. The growing importance of the city with reference to its close proximity to the new oil and mineral fields, will furnish the enterprising newsmen of that city plenty of material.

The Democrat pays the following handsome compliment to Mr. George M. Kiser, who will nominally fill the position of news and city editor of the new publication:

"George M. Kiser, who until recently was connected with the reportorial staff of the Winchester Sun, having tendered his resignation with that paper on April 1, has accepted a position with the Winchester Daily Democrat, assuming his duties with this issue of the paper."

"Mr. Kiser has had many years of experience in newspaper work. He knows news and how to write it, and he has won the confidence and friendship of the people by his fair dealing, his accuracy in reporting the news, and his gentlemanly and courteous manners."

"He has just declined flattering offers from the McAllister, Okla., News-Capital and from Shelton M. Sautley, who proposes to start a daily paper in Richmond."

"Kiser is gifted with a limitless energy. When he gets on the track of an item, he never 'lays down' until he gets the whole dope, and gets it right and in detail. He writes the news for its news value, and never permits his personal feelings to affect the news columns of the paper he represents. Even if he did, it would be no injury, for everybody likes Geo. Kiser and George likes everybody."

"The Daily Democrat is fortunate in securing the services of Mr. Kiser, who is one of the best writers and newsgathers in the State."

FORMER SENATOR CAMDEN TO RAISE BIG FOOD CROPS.

VERSAILLES, KY., April 26.—Former United States Senator J. N. Camden is going to do his full part in the growing of food this year at Spring Hill Farm. He is putting in twenty-five acres of potatoes and an acre of onion sets, and is planting a seed bed to obtain plants to set two acres of winter cabbage. He expects to plant at least ten acres of navy beans and probably some buckwheat. He will also grow a large crop of corn.

"Corn is a vital crop," said Senator Camden, "and with a fair yield will bring \$80 to \$90 per acre, perhaps much more. Cabbage, raised in Texas for shipment, yields ten tons to the acre and has been selling at \$120 per ton or \$1,200 per acre. Onion sets, with a good season, will make 100 bushels to the acre and are now selling at \$7 per bushel, of \$1,400 per acre. Kale is selling at 30 cents per pound. I am told of a farmer who cut \$1,000 worth of kale from five acres. The seed cost him about \$15. Under favorable conditions turnips will yield 200 bushels per acre and they usually sell as high as potatoes."

"I have been told that Lexington firms are engaging the coming season's yield of potatoes at \$2 per bushel. With intelligent cultivation and good land 400 bushels of potatoes can be raised to the acre—\$800 per acre. It will be seen that the pecuniary rewards of such crops as these will be great. But that is not the most important part of it. The farmer who can consider the present situation of the world in regard to food and not strain every nerve to do his utmost to remedy it, must be lost both to all feelings of patriotism and of humanity. The call which comes to the farmer now should appeal to him as being noble, as inspiring and as imperative as the call to arms. I hope that all who sow and reap this year may do it in such a spirit."

WON'T TAKE UP TEDDY'S PROPOSITION

WASHINGTON, April 26.—Theodore Roosevelt will not receive authorization from the War Department to raise an army division for service against Germany on the French fighting front. He has been notified to that effect by Newton D. Baker, Secretary of War.

It is understood that Mr. Roosevelt may appeal personally to President Wilson for the authorization denied him by Secretary Baker, but it was declared that Mr. Baker's action on the Roosevelt request was not until Mr. Baker had discussed the question with the President. It was declared positively that Mr. Baker's message to Mr. Roosevelt denying the desired authorization reflected Mr. Wilson's opinion and that the President, in the event of Mr. Roosevelt appealing to him, would be certain to sustain Mr. Baker.

The President's objection to permitting Mr. Roosevelt to go to France, or any other section of the European war zone at the head of a division of troopers, is said to be based upon the contention that such a permission would be in effect a recognition of the volunteer system.

Mr. McCullough spent some time in this county, part of it with the McCray Bros.

"GOT YOUR DATES MIXED?"

The Farmers' Home Journal, published at Louisville, says, in its issue of last week:

"Mike Murray, Millersburg, Ky., sold some yearling Hereford cattle last week to a Texas dealer, which ran his sales up to \$42,000 in the last two years, which shows what Calloway county grass and corn can do." Since when was Millersburg transferred to Calloway county?

SPRAINS AND STRAINS RELIEVED

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c. (april-adv)

CONTINUE OFFENSIVE.

LONDON, April 26.—While continuing to deliver hard blows upon the German lines in the Scarpe River region, east of Arras, where their offensive was resumed Monday, the British have pushed home a telling thrust in another sector of the great battlefield.

Striking south of the Bapaume-Cambrai road, Gen. Haig's forces gained ground last night along a wide front. Of greatest moment, however, was the success of the drive in reaching the important waterway between St. Quentin and Cambrai, the St. Quentin Canal.

SAFE MEDICINE FOR CHILDREN.

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective in relieving coughs, colds and croup. Obtainable everywhere.

OPPORTUNITY!

Mr. R. F. Clendenin, Associate General Agent for the Northwestern Mutual Life Insurance Company, in one day recently, sold \$100,000 worth of life insurance over local and long distance lines of the Home Telephone Company and because of such an amount of business accumulated in one day, he divides the honors with us for the efficient telephone service rendered. This is a splendid record for both Telephone and Insurance Companies.

Mr. Clendenin says: "The service I get from your Company is all that I could ask, and on the closing day of my campaign I used it with wonderful success."

Such an opportunity in facilitating business should be grasped by the public in general in employing co-operation, efficiency and confidence.

—The Glee Club of Georgetown College gave a concert at the M. M. I. Auditorium, Wednesday at 8 p. m., which was enjoyed by all present. They were greeted by a large audience, and all the numbers were well rendered. It is the first time that this club has ever given an entertainment in Millersburg. They were the recipients of numerous encores, and from the quality of their work showed that they have been well trained.

—One of the most pleasing entertainments given in a long time was the graduation recital in expression at the M. C. auditorium, Monday evening, by Miss Aleta Wilson. Miss Wilson is one of the most popular young readers. All here are familiar with her work. She read "The Shepherd of the Hills," a book that is familiar to most of her hearers. She delineated all the parts with artistic exactness, and her interpretations were indeed good. This, of course, was largely due to her instructor, Miss Ethel King, but in her originality she displayed much by way of interpretation that was really her own. She was greeted by a large audience. She was assisted by Miss Carolyn McIntyre, pianist, whose work was also good and gives promise of a rising pianist of marked ability.

—Sam Victor, colored, died Monday at 8:15 a. m. Sam was in apparently good health until about 11 p. m. Sunday, when he was seized with a severe attack of headache and in a short time thereafter went into convulsions. For the past 12 years he has held the position as porter at the grocery of T. D.

Judy & Son. The remains were interred in the colored cemetery Wednesday afternoon, after an appropriate funeral service at the colored Methodist church by his pastor, Rev. H. A. Stewart.

ARRESTED FOR THEFT OF SUIT OF CLOTHES

Walter Johnson, a negro, giving his residence as North Middletown, was arrested by Chief of Police Woodson McCord, at Winchester, Tuesday, charged with housebreaking. The arrest followed a complaint made to the police by former County Judge Henry C. Smith, of near North Middletown, that a suit of clothes had been stolen from a tenant on his place. When arrested Johnson denied all knowledge of the theft, but it was proven conclusively that the clothes he had on then had been stolen from the Smith farm near North Middletown. Another negro named Sherman Fields was later taken into custody on a charge of having been implicated in the theft of other articles of clothing from the same place.
